The **COMBI KRONES Contiform S8 + Mecafill,** produced in 2004, is an integrated solution of **blow molder, filler, and capping machine** designed for PET bottling with high standards of reliability and performance. This **COMBI** unit combines the Contiform S8 stretch-blow technology from Krones AG with the Mecafill filling system and the **KRONES capping machine**, reaching a maximum speed of 12,800 bph with Alaska thread.
The machine is equipped with a Siemens AG PLC and KRONES HMI, and is capable of handling still and sparkling water. It is currently **viewable in production until January 2027** and is available on consignment, representing a real opportunity for those seeking a reliable and high-performing KRONES solution in PET bottling lines.
