PET LINE STILL AND SPARKLING WATER 25,000 BPH

laura.covelli@bbmpackaging.com · Wednesday, April 30th, 2025

The proposed bottling line is designed for the production of still and sparkling water in PET bottles, with a production capacity of 25,000 bottles per hour.

The line consists of the following elements:

- Atlas Copco ZD2300VSD Compressor (2009)
- Krones Contiform S14 Blow Moulder (2009)
- Eurosistemi Air Conveyors (2002)
- Krones Variojet Filler (2002)
- Krones Labeler (2013)
- BBM Bottle Conveyors

The line can be completed, depending on the customer's specific needs, with packaging solutions (in shrink film, tray, or cardboard) and automatic palletizing systems, with BBM machinery.

Availability: *In production until September-October 2025 – inspectable by appointment*
