ATLAS COPCO COMPRESSOR

RIF
U25.051-COMP

MODEL
ZD2300VSD

BRAND
ATLAS COPCO

CATEGORY
COMPRESSOR

An **industrial compressor** is a machine that draws in air from the outside and compresses it to reach the pressure required to power systems, equipment, and production processes. In the packaging and beverage sectors, the compressor is essential for:
-
Supplying PET blow molding machines that shape preforms into bottles.
The **ATLAS COPCO Compressor (2009)** offered by BBM Packaging is engineered for industrial performance, providing a maximum speed of 37.5 m³/h (25,000 bph) and an operating pressure of 40 bar, ensuring a constant and precise airflow even in the most demanding applications.
Available in two configurations:
- **“As is” condition**
- **Refurbished and guaranteed version**, with a **6-month warranty**
The machine can be **inspected at the BBM Showroom in Lenna (BG)** and can be supplied with **dedicated optional features** to meet the specific needs of your production line.
This compressor has been **kept in excellent condition**, thanks to **regular maintenance performed exclusively by the official Atlas Copco Service**.
It has always been serviced using **only original spare parts** and **certified technicians**, ensuring reliability, top performance, and long-lasting operation.
