

COMPANY PRESENTATION

# PERIODIC TECHNICAL AUDITS

Essential | Business |  
Premium

WHAT WE DO

# PLANNING OF DIAGNOSTIC AUDITS

**BBM offers customized technical audit plans to have your machines and your line work 100%.**

These are annual contracts that allow you to keep your machines monitored and **can be made on blow moulders, fillers, shrinkwrappers, handles, conveyor belts and palletizers** of the main leading manufacturers in the market, ensuring optimal results in terms of reliability and efficiency.

**PLAN FIRST**

**SOLVE NOW**

**BOOST FOR TOMORROW**

LIFECYCLE SERVICE CONTRACT - BBM

## THE ADVANTAGES

keep efficient the machines in your line

**anticipate failures** that could compromise the line and its functioning

**provide a report** with maintenance and spare parts activities, distinguished by priority

**BY YOUR SIDE  
IN PACKAGING**

# MACHINERY MONITORING

**What do we do?** An in-depth inspection to assess the degree of efficiency of your machines.

**Why is it important to do this?** To have technical reports on the state of health of the machines and a list of spare parts recommended to maintain machine' performance

25%

new customers  
every-year

88%

problems  
solved  
in 24 hours

70%

less  
machine  
downtime

## MAINTAINING EFFICIENT MACHINERY

avoiding costs for breakdowns and extraordinary maintenance

## AVOID SUDDEN MACHINE DOWNTIME

that may compromise production

## PLANNING MAINTENANCE BUDGETS

allows you to have a control of annual costs

# REPORTS AND INTERVENTIONS

The diagnostic audit allows you to have a report on the recommended interventions for your machinery and plants

## AD HOC MAINTENANCE

- Replacement of worn components only
- Maintenance based on machine working hours
- Saving money and time

## PACKAGE CUSTOMIZATION

Our packages can be modulated and customized to the specific needs of customers

## ADDITIONAL ENTRIES

- **Training courses for your employees**  
to train your staff to the best use of machinery
