TURNKEY
SOLUTIONS

WHAT WE DO

WHAT WE DO

We specialize in supplying machinery, services, and spare parts for **automated bottling and packaging plants**.

Our many years of experience in providing turnkey solutions for the supply of lines, plants, and machinery for bottling water and beverages have allowed us to acquire expertise, professionalism, and exceptionally high levels of service.

We offer our clients specific solutions, customizations, and functional modifications based on their real needs.

Single point of contact you rely on

Specialized technicians

Innovative approach to customer

Flexibility and versatility

Customized solutions

BBM

WHAT WE DO

ASSISTANCE & TECH SERVICE

We offer a complete range of services to support our customers: line relocation, format changeovers, plant maintenance, training, and hotline remote assistance.

ENGINEERING & UPGRADE

Our portfolio consists of upgrades designed to fully exploit the potential of the machine and achieve energy and cost savings.

QUALITY SPARE PARTS

We have a large warehouse with an extensive range of spare parts compatible with major packaging machinery manufacturers.

OVERHAULED MACHINERY

An impressive selection of used bottling and packaging machines, fully refurbished and guaranteed. We ensure the best in the second-hand market.

WHAT WE DO

ASSISTANCE & TECH SERVICE

Service on bottling and packaging **machines** and **plants**.

We provide technical support for bottling and packaging machines, including maintenance, relocation, training courses, and hotline remote assistance.

Maintenance & Support

Our qualified technicians intervene at the customer's bottling plant for both scheduled maintenance and urgent interventions, ensuring minimal machine downtime.

Relocation & Disassembly

Turnkey services for dismantling, relocation, assembly, and commissioning of production lines. We handle all logistical management of the site, including waste disposal.

Hot Line teleassistance

Dedicated assistance to quickly resume production. The BBM Hotline aims to prevent the intervention of an external technician, resulting in cost savings.

Training

We offer specialized training services to optimize line performance, maximize machine efficiency, and address any issues autonomously.

Third-party assembly

Assembly and testing of machinery at our facility. We offer the customer the advantage of not occupying the space of their workshop or using their own resources and equipment.

WHAT WE DO

ENGINEERING & UPGRADE

BBM designs and develops **tailor-made** solutions to meet customer specifications.

We offer our know-how, infrastructure, and a qualified team for highly specialized activities, to find innovative solutions and solve problems.

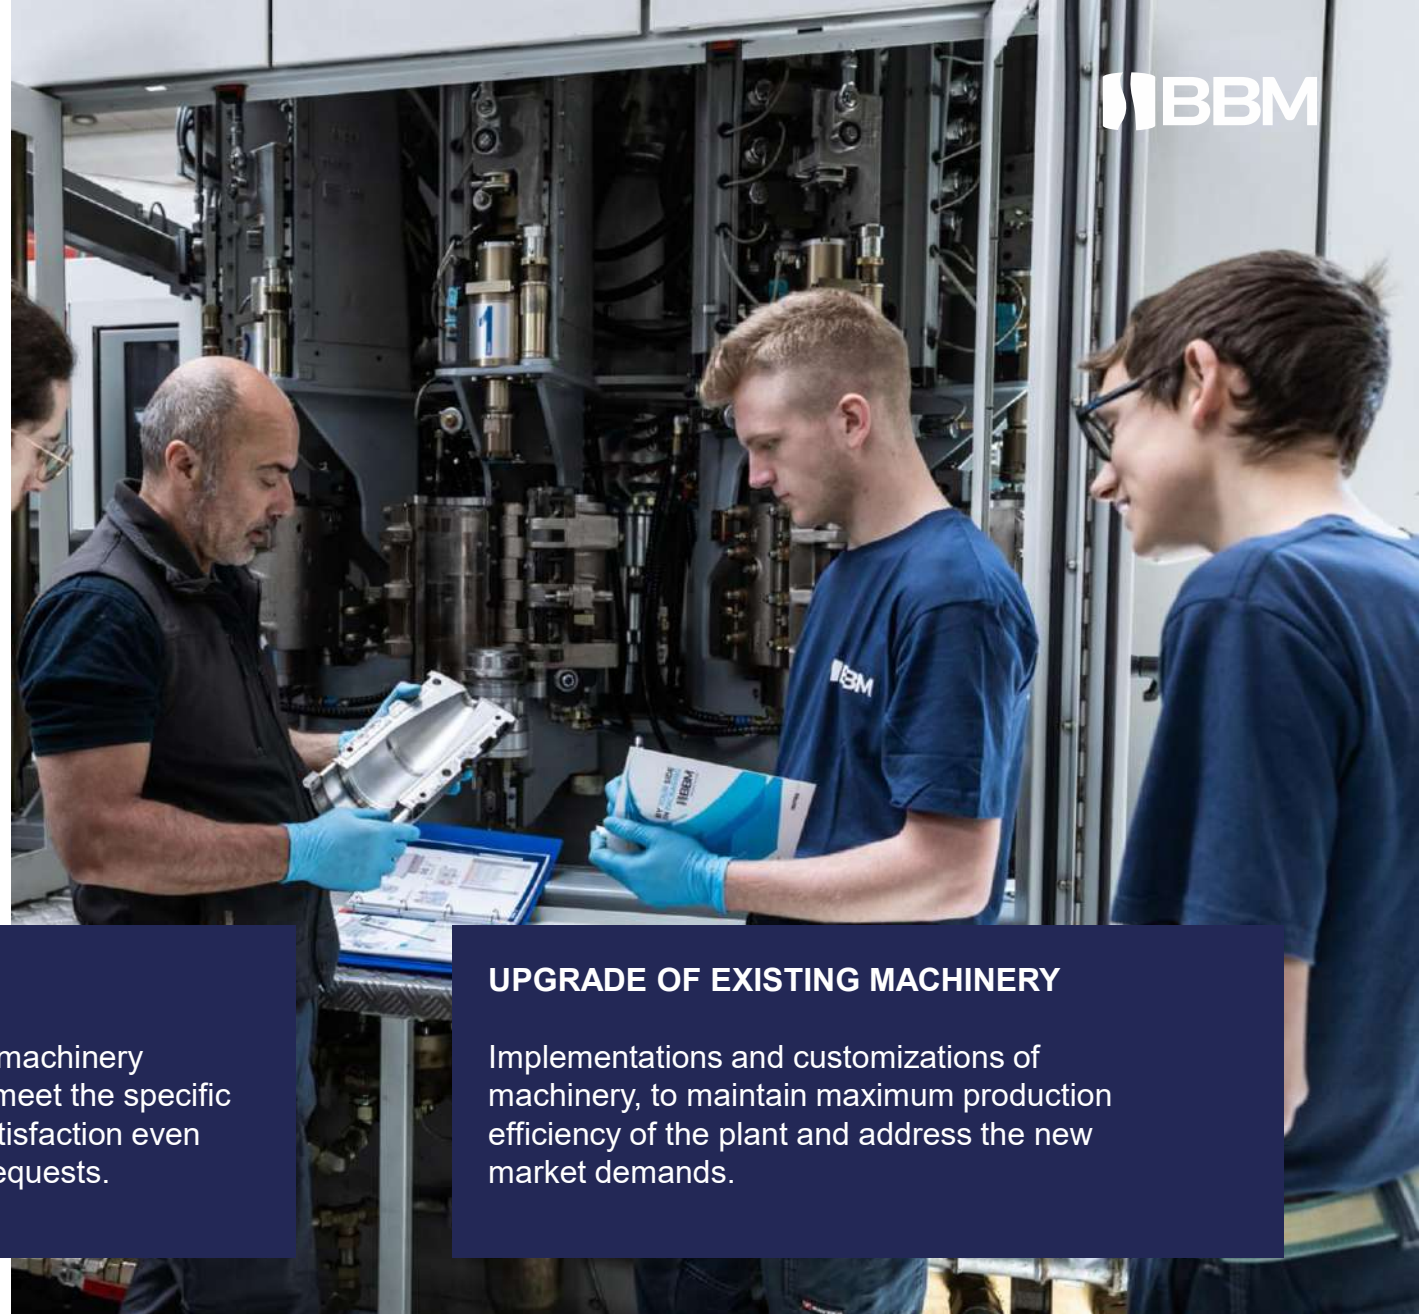

BBM PACKAGING SELECTION

We offer customized solutions and machinery designed by our technical office to meet the specific needs of the customer, ensuring satisfaction even for the most particular application requests.

UPGRADE OF EXISTING MACHINERY

Implementations and customizations of machinery, to maintain maximum production efficiency of the plant and address the new market demands.

BBM PACKAGING SELECTION

BBM designs and develops **tailor-made solutions** to meet the specific requirements of clients.

Here are some of the machines built by our technical office, ready to be implemented.

**UNIVERSAL BLOW MOULDER -

QUALITY SPARE PARTS

Speed, reliability, and precision. Our spare parts enable us to effectively meet the production needs of our customers.

- A **wide range** of spare parts for every type of machine
- Compatible Aftermarket **spare parts**
- Dedicated office for each request

GUARANTEED QUALITY AND COMPATIBILITY

We have a dedicated team for research, development, and quality control. It is extremely important for us to ensure products that are perfectly compatible with the original parts from manufacturers (OEMs), including SIDEL, Krones, OCME.

All our spare parts are tested in an internal metrology room and guaranteed for continuous performance over time.

Reliability assurance

Stringent selection

Machine retrofitting, and configuration

Final testing

CORPORATE PRESENTATION BBM

WHY BUYING USED IS BENEFICIAL?

ASSURED RETURN ON INVESTMENT

Purchasing used machinery allows you to save compared to buying new, without compromising the quality of production. Additionally, BBM aims to assess the value of the decommissioned bottling line and retrieve machinery that may still have market potential, ensuring an assured return on investment.

SUSTAINABLE CHOICE

Purchasing used machinery is a sustainable practice for several reasons; it allows for:

- Reducing circulating waste
- Decreasing the consumption of renewable and non-renewable natural resources, for the construction of new machinery

Buying refurbished, used equipment thus promotes genuine sustainable growth.

AVAILABLE NOW

BBM already has the machinery in-house, which can be customized and installed at the customer's facility in very short timeframes.

TURNKEY SERVICE

BBM will take care of line layout modification, transportation, installation, testing, and subsequent maintenance of the line directly at your facility.

WHY US

Because we are by your side to find the most suitable solution for your needs and meet your requirements.

Our facility has a qualified team for highly specialized activities, aimed at innovating, problem-solving, and achieving cost savings.

Our portfolio consists of upgrades, revamps, updates, format changes, and alternative spare parts for the major models of market-leading manufacturers.

We are always on the lookout for winning ideas to implement together.

SOLUTIONS**

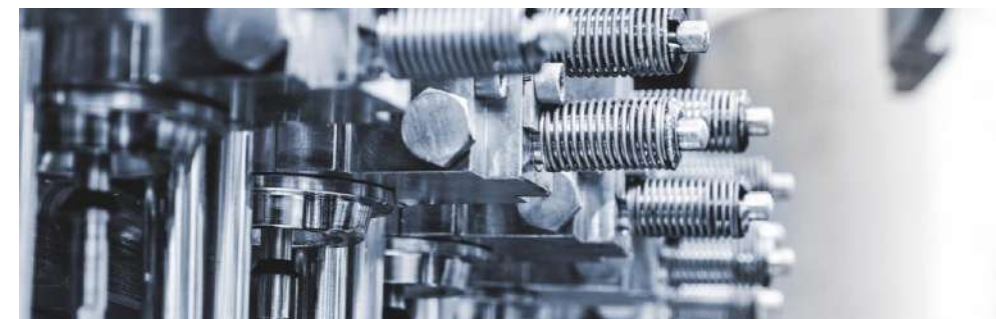

**FAST &
FLEXIBLE**

WHO WE ARE

BBM was born as a natural evolution of the personal history of the three founding partners who, for more than 20 years, intertwined their careers in the automated packaging and beverage industry.

Constantly in contact with operators, the ambition to collaboratively create a project that could effectively meet the sector's demands grew stronger.

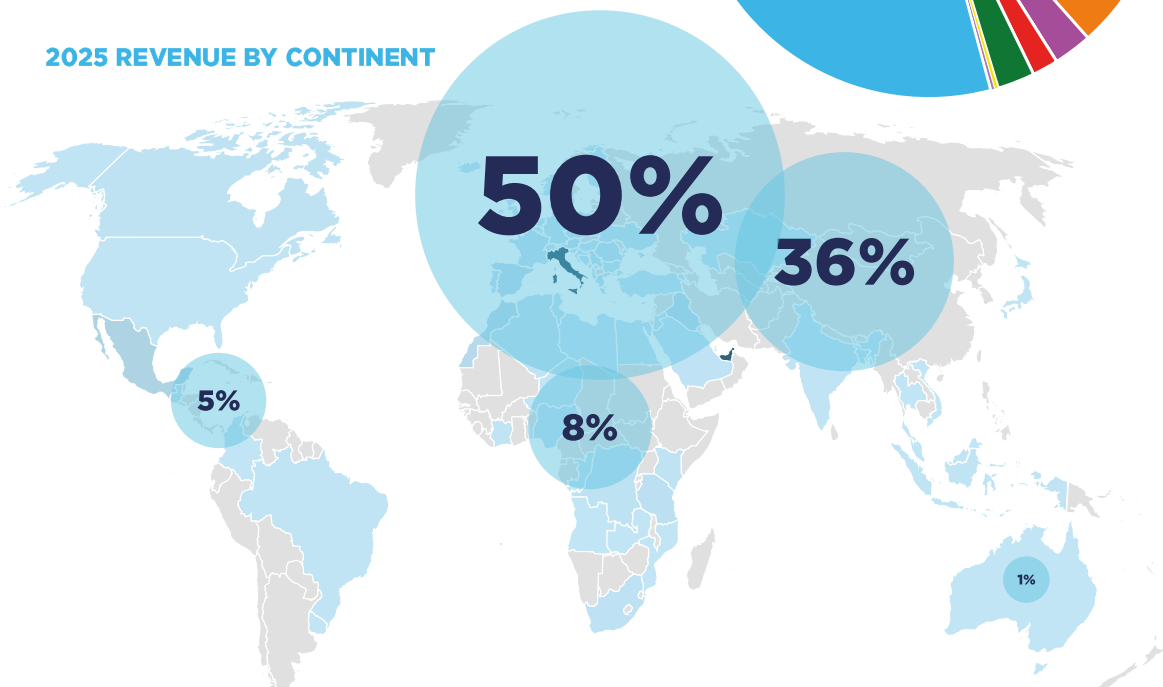

Since 2005, BBM's guiding principle has been **"making a difference and feeling part of the change by realizing a tailor-made project for the customer."** Flexibility, speed, and constant presence are just some of the strengths recognized by our customers, and therefore the reasons why they keep choosing BBM for over 15 years.

SUSTAINABILITY & ETHICS

BBM Service has received a gold medal from Ecovadis, the world's largest universal provider of sustainability assessments.

According to Ecovadis, BBM Service excels in corporate ethics, ranking among the top companies in the industrial F&B packaging sector.

Our strengths include the procurement and/or generation of renewable energy and the implementation of measures to comply with the WEEE directive during equipment replacement.

Our second-hand business ensures the environmental benefits of reducing the disposal of heavy industrial equipment.

As of 2024, BBM has obtained the Gender Equality Certification. Furthermore, since 2023, BBM has aimed to provide its stakeholders with an easily understandable tool to read and interpret its results and performance in terms of sustainability.

WHO WE ARE

QUALITY

At BBM, quality is not just an objective but a distinctive hallmark that sets us apart in the field of spare parts for bottling and packaging machinery.

BBM has established a rigorous quality control process and designed an **in-house metrology room** equipped with state-of-the-art instrumentation. This **climate-controlled environment** is equipped with the necessary tools for high-precision dimensional inspection, including the ZEISS scanning measurement machine and ZEISS optical machine.

Reverse engineering:

Thanks to the FARO Quantum MAX measurement arm, we carry out dimensional surveys for accurate reproduction of spare parts, even those that are no longer commercially available.

REFERENCES

From medium-small manufacturers to large multinational corporations, the satisfaction of every customer is fundamental to us.

Our goal is the complete satisfaction of every customer. We start from these premises to build long-lasting collaborations that fully reward our customers for choosing BBM as their technical partner.

Flexibility, speed, and constant presence: these are the elements that have led our customers to choose us, resulting in the establishment of **preferred-vendor** relationships – as seen with groups like Coca-Cola HBC Italia and Nestlé Waters.

Our references span various sectors: from beverages and water to beer, wine, oil, milk, canned goods, pet food, and pharmaceutical products.
